

Microblading Certificate

Program Title: Microblading Program

Program Credential: Certificate

Program Duration: 2 day

Class Schedule: 9:00 am to 5:00 pm

Program overview

The objective of this course is to teach you how to create the most natural looking, realistic hair strokes in eyebrow permanent makeup with the use of manual Microblading, also known as eyebrow embroidery. This technique enables you to create crisp, fine hair strokes that fill in thin brows, brows with bald spots, total brow reconstruction, and even alopecia.

Your clients can imagine waking up to perfectly groomed brows every day without having to worry about filling in, smudging, smearing or disappearing

Career Opportunities

With today's fast-growing beauty industry and demand for aesthetic services, students will receive hands-on training and gain knowledge in all phases of medical aesthetics. The program will provide information and guidance about career opportunities, seeking and obtaining employment. After completing the program, students will be eligible to start employment in medical spas, doctor offices or self-businesses. Chellsey Institute of Beauty & Health supports students from enrollment to graduation to ensure successful completion
